**Resolution No. M-4816  
March 15, 2006**

**R E S O L U T I O N**

**RESOLUTION M-4816. Adopting Level of Public Utilities Commission  
Utilities Reimbursement Account Fees For Fiscal Year 2005-06**

Section 431 of the Public Utilities Code provides:

“The commission shall annually determine a fee to be paid by every electrical, gas, telephone, telegraph, water, sewer system, and heat corporation and every other public utility providing service directly to customers and subscribers and subject to the jurisdiction of the commission other than a railroad, except as provided in Article 2 (commencing with Section 421).”

The Commission finds that, effective April 1, 2006, for fiscal year 2005-06, the Public Utilities Commission Utilities Reimbursement Account fees should be fixed as follows:

Electrical Corporations	.012 ¢/kWh
Gas Corporations	.076 ¢/therm
Heat Corporations	1.4 ¢/thousand lbs steam
Telephone and Telegraph Corporations	.11% of revenue
Water and Sewer System Corporations	1.4% of revenue (.014)

The rates for Electrical and Gas Corporations are increased from zero to the above levels to return Public Utilities Commission Utilities Reimbursement Account reserves to an appropriate level. The rates for Heat, Telephone, Water and Sewer System Corporations are unchanged from the fiscal year 2004-05 rates.

For administrative efficiency, we will allow utilities that are subject to these reimbursement fees to file a revised tariff schedule in compliance with this resolution and in accordance with the provisions of G.O. 96-A within 10 days from the date of this Order. These advice letters shall become effective April 1, 2006.
